Robin A. Casey focuses her practice on regulatory and legislative issues affecting the communications and cable industries. She has extensive experience in representing communications providers on competitive and policy issues, and counsels them on state and federal laws and regulations affecting their businesses. Robin is a certified mediator and frequent speaker on telecom, broadband, and cable issues.

### **Professional Experience**

- Represents clients in contested cases and rule-making projects before state Public Utility Commissions regarding competitive entry, universal service, pole attachments, and other issues affecting providers of telecommunications and broadband services
- Advises clients on public policy and legislative issues before the Texas and Maine Legislatures
- Negotiates and drafts legislation and provides testimony on legislation affecting clients' issues and concerns
- Provides testimony before various legislative committees on telecommunications, broadband, and cable issues
- Negotiates agreements between telecommunications and broadband providers
- Counsels clients on market entry and business strategies
- Negotiates agreements with public and private entities to permit cable, broadband, and telecommunications providers' access to public and private rights-of-way and telephone poles
- Represented ERCOT in Public Utility Commission proceedings regarding the fees and process associated with the transition to a Nodal Market in Texas
- Provided regulatory and legislative assistance to a Broadband over Power provider
- Successfully represented telecommunications client in binding arbitration against AT&T regarding compensation for termination of traffic
