- George Washington University, Washington, D.C.
- B.S., Economics, 1970

Admissions

- Texas
- U.S. Supreme Court

Susan C. Gentz focuses on telecommunications issues in administrative law. She advises national and regional telecommunications and broadband infrastructure providers, including wireless carriers, on business and contract matters and on compliance with telecommunications and cable law. She represents clients in agency rulemaking proceedings impacting telecommunications and cable providers, and has litigated numerous contested case proceedings before the Texas Public Utility Commission.

Professional Experience

- Advises clients in the complexity of Telecommunications and Cable Law and counsels clients on legal issues impacting their business operations
- Has extensive experience in negotiating easements, and license and right-of-way agreements, and in negotiating interconnection agreements between competitors and incumbent local exchange carriers
- Represents clients in agency rulemaking proceedings affecting telecommunications and cable providers, and in contested case dockets involving matters such as universal service, municipal access line fees, and rule compliance

Publications & Presentations

- Issues in Interconnection Agreement Negotiations with Small and Rural Incumbent Local Exchange Carriers, COMPTTEL, September 2010
- New UNE Rules: the FCC's Decisions on Access to Unbundled Transport, TEXALTEL, April 2005
- BOMA's Constitutional Challenge to the Texas Building Access Statutes, Federal Communications Bar Association (Texas Chapter), (Co-presenter), May 2002
